

## COUNTY HOUSE IN GOOD SHAPE

Trustees Report to Board  
of Supervisors In  
Session Today.

IT HAS 255 INMATES.

Financial Condition of the In-  
stitution Better Than It  
Has Been For Years.

STATISTICS FOR YEAR

The board of supervisors for Rock county met in annual session at two o'clock this afternoon at the clerk's office in the court house. Chairman J. L. Bear presided and called the meeting to order. Roll call showed that most of the members of the board were present to take part in the proceedings.

The greater portion of the afternoon was taken up with the presentation of petitions and reports which were referred to their proper committees.

The annual report of the trustees of the Rock county insane asylum for the year ending September 30, 1901, was presented and was in substance as follows:

**County Insane Asylum.**

The institution is well managed and a high degree of discipline maintained. Superintendent Killam and his corps of assistants are untiring in their efforts to make the unfortunates placed in their care as happy and contented.

The total number of insane cared for during the year was 151. The total number of paupers was 89, making a total of 240 as against 153 insane and 97 paupers of last year or a total of 250. The net cost per week per capita this year was \$1.67 as against \$1.56 last year. The increase in the cost of keeping is due to the increased cost of supplies.

The cost per capita per week reaches 2.45.

The number of insane in the asylum as shown by the superintendent's report September 30, 1901, was 141. The number of paupers in poor house on the same date was 47, making a total of 188.

On the same date last year there was in the asylum 139, in the poor house 53. Total 192.

This statement shows 2 more in the asylum, 6 less in the poor house and 4 less in both than one year ago.

Considering the long, hot, extremely dry summer the farm and garden have yielded a fairly abundant crop of not only grain and hay but of vegetables also, the aggregate being the same as one year ago.

The stock on the farm is in fairly good condition. A little thinner in flesh than last year owing to the short feed caused by the dry weather.

**Financial Condition Good.**

The following is a statement of the financial condition of the institution for the year ending September 30, 1901:

**RECEIPTS.**

In the county treasury Oct. 1, 1900, subject to orders of the trustees..... \$ 7,961.76

Received from the state during the year..... 15,703.27

Deposited by Superintendent Killam during year 2,273.14

Total..... \$24,140.17

**DISBURSEMENTS.**

Drawn out on orders of trustees..... \$10,944.31

Balance in treasury October 1, 1901..... 7,185.85

Total..... \$18,130.16

The annual settlement with Supt. Killam shows the following debits and credits during the year:

**DEBIT.**

Cash on orders from trustees \$10,944.31

Cash from private patients..... 1,537.5

Cash from inmates poor house 288.99

Cash from sale of farm prod's 64.93

Cash from all other sources..... 81.28

Total..... \$12,916.98

**Credit.**

Cash for maintenance..... \$16,737.31

Cash for permanent improv's 207.00

Cash deposited with Co. Tr's 2,273.14

Total..... \$19,217.45

The cash earnings of the institution as shown by the superintendent's report are: At the asylum, \$15,897.80. At the poor house, \$298.99. Total, \$16,196.79.

Cash expended for maintenance: At the asylum, \$13,579.80. At the poor house, \$3,157.51. Total, \$16,737.31. Excess of expenses over earnings, \$540.76.

**Cannot Make Money.**

You will readily see from the foregoing statement statements of receipts and expenditures that we can no longer expect to make any money by keeping insane from other counties, because the new asylums are being filled up at the expense of the older ones, but we can keep our own insane at a minimum cost.

The cost of the farm and improvements to Oct. 1, 1900 was \$151,193.16. Permanent improvements made during the year, \$207.00. Total cost to Oct. 1, 1901, \$151,400.16.

Your honorable body at its last January meeting appropriated \$4,000 for a hospital (which is very much needed) the erection of which was placed in charge of the committee on public buildings and is now nearing completion. No part of the cost of this hospital is included in the above statement of the cost of the plant.

Products of the farm and garden of

a cash value of \$4,360 have been consumed by the inmates of the institution and of which no account is made in making up the per capita cost, for the reason that the cost of producing this crop has already entered into the expense account.

**The Afternoon Session.**

All but three of the thirty-six supervisors that make up the county board answered roll call this afternoon. Clerk Starr presented a communication from Supt. M. T. Parke of the state public school for dependent children at Sparta notifying the board that the school takes infants and crippled children with no additional cost to the county. The communication was placed on file.

A report from the county treasurer stating that he did not sell a piece of property at the last delinquent tax sale for the reason that the description was not correct was referred to the committee on tax certificates and illegal taxes.

A communication from W. H. and J. T. Pomeroy of the town of Fulton asking that the tax assessed them on \$1,500 put into the assessor's report of 1900 as money on hand when it should have been liabilities, was referred to the committee on tax certificates and illegal taxes.

On motion of Supt. Simon Smith the county treasurer was instructed to pay over to the asylum trustees the money received from the insurance companies in payment of the recent fire loss for them to use in making repairs.

A. M. McDougal under suspension of the rules was given \$5 for his services for estimating the recent damage at the asylum.

**Supervisor of Assessment.**

Supervisor C. H. Merrick offered a resolution which was passed making the selection of a supervisor of assessment a special order of business for Thursday morning at ten o'clock. The principal candidates for this office are W. J. McIntyre, Janesville; George Seegmiller, Beloit; O. D. Bracco, town of Janesville; C. E. Bowles, first ward, Janesville; and J. A. Deniston, Janesville.

## BRINGS A REVENUE OF OVER \$60,000

Total Fees to the State from Hunting  
Licenses—201 Outside Li-  
censes Issued.

Madison, Wis., Nov. 12.—(Special.)—Licenses to hunt deer in Wisconsin have been issued to 201 residents of other states this year, as compared with 89 last. As the number of local licenses has increased in nearly the same proportion, this gives some idea of the slaughter which is going on in the woods this week. The total receipts for non-resident deer licenses this year thus far amounts to \$5,025, at \$25 each, against \$2,225 last, and the small game or \$10 licenses to non-residents brought in in fees a total of \$2,000 this year, against \$1,420 last. The total receipts from licenses issued to non-residents this year amount to \$7,025, or nearly double the amount last year. The deer hunters come from several of the eastern states, a large number from Ohio and Pennsylvania, and the majority have secured their licenses since reaching the woods.

In addition to these the licenses to local hunters have about doubled, and the total fees from hunting licenses this year will bring in a revenue of over \$60,000.

## BOARD MEMBERS ARE NOT ELIGIBLE

County Supervisor of Assessment  
Must Be an Outside Man to  
Hold Under the Law.

Madison, Wis., Nov. 12.—(Special.)—Members of county boards are not eligible to the office of county supervisor of assessment, which was created by act of the legislature. Elections to this office are to be held soon by most of the county boards, and the state tax commission has received many inquiries as to whether a member of the board is eligible. The commission has given the matter careful consideration, and has sent out a circular letter announcing its conclusion that they are not.

A supervisor who intends to be a candidate for supervisor of assessment, the commission says, should resign his membership on the county board before the compensation for the new office is fixed or the election held.

## SPARKS FROM THE WIRES

Boston, Nov. 12.—Fire this morning destroyed nearly a quarter of a million dollars' worth of property in Mayor Hart's six story building on the corner of Broad and Franklin streets.

New York, Nov. 12.—After suspension of over four months the Seventh National Bank opened its doors this morning for business. While using its old name the officials of the bank are entirely changed. Edwin Gould is now president.

Syrax, Island of Syrax, Nov. 12.—Admiral Canlard, commanding the French squadron in Turkish waters has left Mitylene and will arrive here tomorrow. He will remain here until the Porte fulfills its promises to France.

London, Nov. 12.—A heavy northwest gale attended by heavy damage to shipping is beating on the east coast of England.

Dputy Game Warden Peter Drafa of the town of Rock was in the city today on his way to the north woods where he has been ordered to look out for deer hunters during the next thirty days.

## CHICAGO EDITORS SENT TO JAIL; DECLARED IN CONTEMPT OF COURT

Managing Editor Lawrence and Reporter Canfield of  
Hearst's American, Sentenced by Judge Haney  
Today—Will Employ Habeas Corpus to Appeal.

Chicago, Nov. 12.—Judge Haney this morning sentenced Managing Editor Lawrence of the Chicago American, to forty days in jail for contempt of court. Reporter Homer Canfield was given thirty days for the same offense. General Manager Carvalho and Assistant City Editor Hammond also charged with contempt, were dismissed. The American criticized Haney for his decision in the gas trust case while it was still open.

Judge Haney in his opinion claims that if the courts lose their power to commit persons guilty of contempt the judicial structure will fall and when the structure of civil government will fall land there will be no longer any guarantee of our liberties.

The possible steps which the attorneys for the newspaper men see before them after Judge Haney records the final judgment, are, by writs of error, or of habeas corpus, to take the case to the Appellate or supreme court.

## ANOTHER DIVORCE FOR GRACE COFFIN

Has Been Separated from the Same  
Man Three Times—Contem-  
plates Marrying Again.

Chicago, Nov. 12.—Miss Grace Coffin, daughter of Amos Snell the murdered millionaire, secured a third divorce from the same man, Frank Coffin. This makes the fourth time she has been divorced, first from Coffin twelve years ago, again from him soon after their remarriage and three weeks ago from James Walker. Immediately after the Walker divorce she took Coffin as her husband for the third time only to be legally separated on the grounds of incompatibility. It is said Mrs. Coffin-Walker-Coffin contemplates becoming the wife at an early date of a prominent Chicago man.

## SENATOR DEVOS TO SUCCEED ROBERTS

New Collector Named for the Port of  
Milwaukee—Goes to a Stal-  
wart Republican.

Milwaukee, Wis., Nov. 12.—Senator Quarles sent for Collector of Customs Roberts this morning and informed him that he had decided not to reappoint him, thus disposing of a matter that has been hanging fire for a number of weeks. Roberts' successor will be State Senator William H. Devos, a Stalwart, and his name will be before the senate as soon as it convenes.

Mr. Devos is a well-known business man, being the senior member of the firm of Devos & Whitnall, dealers in coal and building material.

Mr. Roberts has been accused of holding certain republicans who were nominated for office, and friends of Quarles say Roberts' first choice for the senatorship three years ago was not Quarles.

The office of the Collector of the Port of Milwaukee is worth about \$5,000 a year. Roberts' term has just expired.

## WANT NEW TRIAL FOR HENRY HAYES

Tramp Who Was Sent to Prison For  
Eight Years From Portage In  
September, 1898.

Madison, Wis., Nov. 12.—(Special.)—An effort is being made to secure a new trial for Henry Hayes, the tramp who was sent to prison for eight years from Portage, between two and three years ago, for killing another tramp named Murphy during a battle between a party of half a dozen or more tramps in the railroad yards at Portage in September, 1898, in which two of the party were killed or fatally hurt. Hayes was convicted of manslaughter in the first degree. The maximum sentence for this is ten years, and he was given eight.

The case was brought to the supreme court on a writ of error and arguments were heard today by Daniel H. Grady on behalf of Hayes, and by Judge W. S. Stroud of Portage and Assistant Attorney General R. H. Hamilton against disturbing the conviction. Several errors at the trial in the court below are alleged by the defense, one being the admission of the evidence of Dr. Meacham, who had Murphy's body exhumed and examined seven months after the killing. Hayes admitted he was in the fight, but claimed that he was not the man who killed Murphy. The contention of the state is that all of the other members of the party were engaged in an assault on Murphy.

A fast freight of twenty double-decked sheep cars loaded with sheep for the Chicago markets passed through this city this morning on the Northwestern ahead of the 10:10. They came from the northwest and were run through on passenger time. The only stops made were at meeting points and to change engines and crews.

## LAKE MILLS HOTEL IS BURNED DOWN

The Park House Totally Destroyed—  
Guests and Employees Barely  
Escaped—Loss \$10,000.

Lake Mills, Wis., Nov. 12.—The Park hotel was totally destroyed by fire this morning and the guests and employees barely escaped with their lives. Everything was lost, the occupants not even having time to dress. The night was cold and the men and women in their night clothes without wraps of any kind suffered greatly until citizens opened their homes and sheltered the unfortunates. E. W. Davis, proprietor of the hotel estimates that the loss is \$10,000 and he says that \$5,000 insurance was carried.

**Found Work for 210 Persons.**

Madison, Wis., Nov. 12.—(Special.)—The free state employment bureau at Milwaukee and Superior found employment for 210 persons last week, a larger number than for several weeks past.

## SPECIAL CROWN FOR THE QUEEN

The Principal Feature of Alexandria's  
Head-Dress Will Be the Fa-  
mous Kohinoor Diamond.

London, Nov. 12.—It is stated that the king has ordered the construction of a special crown to be worn by the queen at the coronation. The principal feature of the crown will be the famous Kohinoor, which was found in the mines of Golconda 341 years ago. The Kohinoor is the most remarkable diamond in the royal collection. It was often worn by Queen Victoria on special occasions. The original weight of the gem was 800 carats, but it now weighs only 106 1/2 carats, yet it is valued at about \$10,000,000.

## HAS AN IDEAL FOR A MODERN CITY

Dr. Richard T. Ely of Wisconsin Uni-  
versity, Delivers Address on  
20th Century Municipality.

Madison, Wis., Nov. 12.—Dr. Richard T. Ely, director of the school of Economics, History and Political Science in the University of Wisconsin, read a notable paper last night before the Madison Literary Club on the subject, "The Twentieth Century City." It was a strong plea for the adoption in this country of the German system of filling municipal offices with experts, regardless of residence or politics.

He warmly commended the election of Seth Low as mayor of New York and saw in this fact the awakening of a healthy, hopeful civic consciousness. He urged civil service reform and scored the so-called "best citizens" who fall to take an active hand in municipal duties.

Municipal government is a profession and not a business he said. It requires special preparation, and a man should devote his whole life to it. He denounced the impertinence of the professional politician, often a business failure himself, in presuming to manage a city's affairs.

"The municipal council is the proper legislative body," he said, "and should include men representing all of the different interests of the city. The administrative offices on the other hand, should be filled by experts with permanent tenure of office."

"Cities should be governed like universities, with an institutional force composed of experts with a permanent tenure of office or a tenure during good behavior."

## ALABAMA RATIFIES NEW CONSTITUTION

The Negroes' Disfranchisement Mea-  
sure is Said to Have an Over-  
whelming Majority.

Montgomery, Ala., Nov. 12.—Alabama voted yesterday on the question of ratifying the new constitution, the principal feature of which is the disfranchisement of negroes, while allowing all whites to vote.

A large vote was polled, the negroes turning out in large numbers to vote against ratification. At 10 o'clock this morning George W. Jones, district chairman of the ratification campaign committee, claims that nine counties in the second congressional district will give 7,000 majority for ratification.

Mr. Jones says the figures indicate that the state will give an overwhelming majority for the constitution.

## CROWDS FOLLOW ANDREW CARNEGIE

The Great Library Philanthropist Es-  
capes by a Rear Door to Avoid  
Gift Seekers.

Pittsburg, Nov. 12.—So many people lined up in front of George Lauder's house to importune Andrew Carnegie today that the great philanthropist found it convenient to escape by a rear door. He jumped into a carriage and was driven to the Phipps conservatories in Schenley Park. He did not stop to ask the anxious inquirers for him what they wanted. Nearly all represented some charitable organization. One had a subscription blank for a church, another a quest for a library, a third a petition for an organ, and so on.

## TO BUY ISLANDS FROM DENMARK

St. Thomas Forms a Part  
of Dewey's Scheme  
of Defense.

NEEDED BY THE U.S.

Protection of the Atlantic Sea-  
board Involved in the  
Proposed Purchase.

DANISH WEST INDIES

Washington, Nov. 12.—Secretary Long has written a letter to the General Naval Board, of which Admiral Dewey is chairman, asking for a report on the Danish West Indies, which are now in negotiation for sale to the United States.

The request of the secretary is on account of the terms of sale as proposed by Denmark.

The terms given are those of the new Danish ministry. Denmark is also anxious that the inhabitants of the islands become citizens and shall have the best possible relations with the United States, and incidentally Denmark would like to have special trade privileges with the United States. These negotiations may cause a little delay, but there is every reason to believe that the treaty for the sale will be sent to Congress at the coming session. The fact that the secretary of the navy has asked for a special report on the islands demonstrates that it is intended to send to the foreign relations committee of the senate at the earliest possible day the opinion of some eminent authority as Admiral Dewey on the question. Secretary Long is undoubtedly acting under advice from the White House, where the terms of Denmark have been conveyed by Secretary Hay. It is not generally known that the board of which Admiral Dewey is president has formulated a scheme for the defense of the Atlantic seaboard from Maine to the equator. This was done in order to ascertain how far the navy of the United States could operate successfully in defense of the Monroe doctrine if the administration had to fight to maintain it. The harbor of St. Thomas in the Danish West Indies was included in the great scheme of defense which Admiral Dewey mapped out. The conclusions of the board were that the harbor of St. Thomas was essential to the handling and mobilizing of a great American fleet in an emergency. These facts show that there is every probability that Admiral Dewey will again make a strong report in favor of the purchase of the islands.

## SOCIAL FUNCTIONS PUT UNDER A BAN

The President of Lawrence University  
at Appleton Says They Inter-  
fere with Studies.

Appleton, Wis., Nov. 12.—Social functions are under the ban at Lawrence University; President Plants announced this morning that for the remainder of the term social diversions would be tabooed. The president said that the work done during the last month was of a very low order, due to social dissipation of the students into which they had dipped more deeply than into their books. The announcement was received with dismay. With the exception of the reception of the Phoenix and Lawrence Literary societies' next Friday night there will be no more social gatherings among the students for the remainder of year.

## FIRE ONE SHOT AT CHARLES HART

An Insult to the United States Minis-  
ter to Colombia is Promptly  
Punished at Bogota.

Bogota, Colombia, Nov. 12.—A sentinel at Tequendama Falls on Oct. 25 declined to honor the passport of United States Minister Charles Hart and fired one shot at the minister. The diplomat was not hit by the bullet. The government has severely punished the soldier and is seeing that the minister is fully protected.

## WRECK DRIFTING ON LAKE HURON

Schooner Sweetheart with Eight Men,  
Believed to Be Lost in a Ter-  
rific Storm.

Alpena, Mich., Nov. 12.—The old schooner Sweetheart, with eight men on board, is drifting about in Lake Huron at the mercy of a terrific northwest gale, if she has not already plunged to the bottom.

The most remarkable feature of the case is that she carries imbedded in her bottom plank, an immense boulder. It is this boulder that she would immediately fill with water. She picked up the boulder a few days ago when she crashed on the rocks at the entrance to Georgian Bay.

## DOING BUSINESS AND NO FRANCHISE

Telephone Company Charged with  
Stringing Wires Without Authority.  
—Council Meeting Last Night

The common council at its meeting last evening discovered that a telephone company had been in operation in this city for some time and was doing business without a franchise or permit from the council. Although the wires have been in use for a year or two and have an Alderman Kothman said, been strung on the arm at the top of the poles that is for the use of the fire department, they have just been discovered. The city clerk was ordered to have the report investigated and if found to be true to have the wires removed at once. Alderman Kothman says the company now using the poles without authority is the Badger State Long Distance Telephone company and its toll business is conducted by the Rock County telephone company. The Badger Company is now going through the reorganization process.

Alderman Rice asked the clerk to read the report of the city electrician in regard to the condition of the electric lights in the city during the month of October. After reading several pages of closely written matter, showing that on different nights during the month that there was from six to nineteen lights out and mostly for lack of carbon and proper care, the mayor decided that they had heard enough and that the committee could attend to the balance of it. They will report at the next meeting.

All the aldermen were present at the meeting with the exception of Valentine and Gilkey, who were out of the city. Mayor Richardson presided.

The city treasurer's report and the municipal court report for the month of October were received and placed on file. The bonds of James Rawson & Son, clay hall contractors and P. W. Ryan for work on South Second street were found correct and placed on file. The bond of Mueller Schlader and Frieleff for a saloon license was found to be correct and accepted. The report of the street assessment committee of the work done on South Franklin, Academy, Court, Dodge, Pleasant and Marion streets was accepted and placed on file. The work on all but Court street was reported completed and a statement of the benefits and damage assessed to each parcel of real estate was made. Bonds to cover the cost of the improvement were ordered issued and left with the mayor for disposition. They aggregate about \$1,600 and draw 6 per cent interest.

The report of the board of education for the months of July, August and September was referred to the committee on schools and afterwards accepted and placed on file. A list of bills covering the last month was read and the city clerk instructed to draw orders on the treasurer for their payment. Orders were ordered drawn on the treasurer to pay city notes 51, 52 and 47 in all \$7,600 payable from the general and fire and water funds; also one for \$9,675.66 for the payment of the mortgage on the library site and one for \$2,150 to the treasurer of Rock county for their portion of the saloon license money.

Orders payable from the general fund for work done on Court street, Pleasant and Dodge streets by John Martin to the amount of \$873.20 were ordered in favor of the Fifield Lumber company as an assignee; also orders for \$1,485.97 to the First National bank as assignee of the same party.

Rowson & Son were given an order for \$4,000 as part payment on their contract.

The report of the street assessment committee of the amount due for work done on Court street on account of John Martin was accepted and ordered paid from the general fund. The transfer of the license of Robinson and Kehoe to Mueller Schlader and Frieleff was sanctioned.

The city attorney was instructed to dismiss the suit against W. T. Dooley for selling goods without a license.

Alderman McLean stated that Alderman Murray and himself had circu-

## Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—

THE SWIFT SPECIFIC CO., ATLANTA, GA.

lated a petition among the residents of North street asking to have that part of the street where it crosses the Northwestern tracks vacated. In return the company would give the city an iron viaduct at Galena street. The Fourth Ward park fronts on this street and it was necessary for the city to sign the petition. The clerk was instructed to sign the petition for the city.

Sidewalks were ordered built in front of Lot 56, Smith and Bailey's addition on North Franklin street and in front of Lot 1, Block 11, Palmer and Sutherland's addition on School street.

J. P. Robinson was given permission to move a building from Lot 6, Dixon and Bailey's addition to Lot 5, Subdivision of Block 9, Forest Park addition.

The bill board on North Jackson street near the railroad tracks was said to be in a dangerous condition and was ordered removed and a brick cross walk was ordered across East street at South First street.

The grading of North First street is likely to go over until spring. When the matter came up last night Alderman Hutchinson found that none of the necessary steps to do the work had been taken. The matter had to be advertised for thirty days and will be done at once.

Mayor Richardson made his report on the sale of the \$65,000 bonds at a basis of 3 1/2 per cent. He considered it a good sale for the city. After the long distance telephone question was disposed of the council adjourned.

## ELABORATE PLANS AT ADAMS SCHOOL

Beautiful Observance of the Thanksgiving Season—Will Present the Story of "Evangeline."

Teachers and pupils at the Adams school are making quite elaborate plans for a beautiful observance of the Thanksgiving season this year, and on the Friday night following the national holiday of praise the people of Janesville will have an opportunity to hear again the sweet story of "Evangeline," as told by the immortal Longfellow. Not only may they hear the story but beautiful scenes from it will be portrayed in a series of living pictures.

The entertainment will be given at the High school building, Friday evening, November 29 and will be rather unusual in its nature. Tableaux, pictures from "Evangeline" will be given by groups of children and portions of the poem describing each picture will be read by students in the higher grades of the school. The readings will be given by Myrtle Osgood, Walter Caemmerer, Cora Holt, Mabel Isaacs, Harry Spencer, Nellie Decker, Julia Enright, Mae Morrissey and Paul Porter. The following are the pictures which will be given:

The Forest Primeval, The Blacksmith Shop, The Contract, The Feast of the Betrothal, Tidings of Ill, Searching for Gabriel, The Shawnee, Woman's Story, Gabriel Found.

In the pictures which illustrate the story the characters in the story will be taken as follows:

**Cast of Characters.**  
Evangeline, as a little girl... Mildred Holloway  
Gabriel, as a little boy... Charlie Davis  
Evangeline... Mand Rose  
Gabriel... Paul Porter  
Basil, the blacksmith... Bent Fisher  
Benedict... Eddie Bonner  
Rene Le Blanc, the notary... Willie Zerbel  
Michael, the fiddler... Harry Spencer  
About forty matrons, maidens and children

Intermingled with the story of "Evangeline" there will be an excellent musical program, also given by the pupils. A chorus of primary girls and a chorus of primary boys will sing some of Mrs. Jessie L. Gaynor's songs and Marion Paul and Lillian Crowley will play a mandolin duet. Among the other numbers will be a vocal solo, by Alfred Oleson, a violin solo by Gertrude Paul, a guitar solo by Maud Rose and piano solos by Genevieve Schnell, Ma Morrissey and Mary McGinley.

**Y. M. C. A. Week of Prayer**

This is the week of prayer for the Y. M. C. A. but it will not be observed in any public way by the local association. This afternoon the Woman's auxiliary to the Y. M. C. A. held a devotional service, in accordance with the purpose for which this week is set aside by all Christendom. On Friday evening at 7:30 o'clock the evangelical churches of the city will hold a union service of prayer for a general spiritual revival in all lines of Christian endeavor. The meeting will be held at the Baptist church and will be the only public service of the week. Y. M. C. A. workers felt that there are so many calls on the time of the people that it would not be wise to introduce a series of meetings as an observance of the week. Those who really have the interests of the association at heart will observe the week of prayer quietly and sincerely in the seclusion of their own homes.

**Minn.-Wisconsin Football Game at Madison, Nov. 16th.**

Relative to above the C. & N. W. Ry are in receipt of the following message:

To A. N. Leason: The game commences at 2:30 and the kick off will be about 3 p. m. (Signed.) C. A. Kirkpatrick, Mgr.

The Imperial Band excursion via the C. & N. W. Ry leaving Janesville at 1 p. m. will run through to Madison without stops thereby giving all an opportunity of leaving here after dinner and arriving at Madison in ample time for the game.

**Football Game at Madison, Nov. 16th**  
—Called at 3 p. m.

The Imperial band are in receipt of advice from Manager Kirkpatrick at Madison to the effect that the Minnesota-Wisconsin teams will appear on the field for practice at 2:30 p. m. Kick-off at 3 p. m. The Imperial band will leave Janesville at 1 p. m., returning on special at 8:15 p. m.

## WHITE HOUSE DINNER

Southern View of That Famous Event  
by a Democratic Paper at  
Tuskegee, Alabama.

Tuskegee News: The Tuskegee News is the only paper published by the white people in the town of Tuskegee and in Macon county, Alabama. The Tuskegee Normal and Industrial Institute is located and of which Booker T. Washington is principal. This is the first time the paper has referred to the White House dinner which has created so much discussion. We have waited patiently before discussing the matter, because we did not want to speak excitedly or hastily.

The News would say that it has no hesitation in saying that it regrets the incident and also much of the unpleasant discussion that has grown out of it. Professor Booker T. Washington has lived in this community now for twenty years and the white people in this town and county feel that they know him and his work pretty well. There can not be found in the whole south a more intelligent, cultured and discriminating people than those that live in Tuskegee and vicinity and none who would more quickly see and resent any social advances on the part of the negroes in the south.

Professor Washington's life for twenty years has been an open book in this community and the south and it is hardly the part of fairness to judge a man by one act with which we may not agree rather than by his twenty years of wise living.

It is perfectly well known in this community that for fifteen years Prof. Washington's business in securing the money to carry on his work has thrown him into contact with the northern white man, both in the south and the north, in a way that does not often fall to the lot of the average colored man, but it is equally well understood in this community that all such contact is in the life of business and the purely social aspect never enters Prof. Washington's head. We feel quite sure that the same is true of the much talked of dinner at the White House and that it was not a studied and planned affair on the part of President Roosevelt and Professor Washington to offend the south but that the president found that he could most conveniently see Principal Washington on business at his dinner hour and therefore asked him to be present. It is also known by our people that in the north the dinner table is a place to talk over business to a greater extent than is true in the south.

We repeat that it has been known for nineteen years in the south that Professor Washington comes into contact with people of the north in a way that he does not in the south. There has been scarcely a week during the last ten years when the Associated Press has told us of his speaking and dining at some banquet in the north with governors, etc. We all know that it was widely reported in the press dispatches three years ago that he lunched with President McKinley and his party in Chicago during the Peace Jubilee in Chicago. Nothing has been hidden from the south. Anyone who knows Prof. Washington knows that he would be the last to seek invitations or to obtrude himself in a social way upon any one.

One other question arises. It is this: So long as Principal Washington pays due regard, as he has always done, and as we believe he will continue to do, to the feelings and wishes of the white people while he is in the south, how far can we reasonably expect to limit and circumscribe his actions while he is in the North? Are some people not in danger of asking too much? As to the future we are sure that we can trust Principal Washington to do the wise and sensible thing as he has done up to the Washington incident.

Surely if Principal Washington were engaged in preaching a propaganda of "social equality" we believe we should see evidences of such teaching in this community where his school of 1,200 students and teachers is located. Until we do we shall be slow to pass commendation for one incident.

It should also be remembered that the negro race is at the present time without representation in the state legislature and in the national congress and that the negro race comprises one eighth of our entire population and that a president who has sworn to be a president of all the people will once in a while want to get information about the negro race, and it will be natural for him to call upon a man like Professor Washington for information and advice regarding his race.

Professor Washington has often

## Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alternative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

said in his addresses that he had rather have his good will, respect and confidence of his neighbors of both races in the little town of Tuskegee where he has made his home for 20 years than be without the good will and confidence of his neighbors and have the confidence of all the rest of the outside world. We are sure that we speak the truth when we say that the town of Tuskegee still has the highest confidence in him and respect for him.

## MOVING PICTURES OF LIVING SCENES

The wonderful moving pictures of actual living scenes reproduced by the Kinodrome at Myers Grand for three nights from Nov. 14, are a source of great mystery to the majority of people who see them; take for instance, the scene Through Haverstraw Tunnel on a Locomotive. If it is desired to take a panoramic view such as one sees when riding on a locomotive, the camera is provided with a roll of film that will run as many minutes as desired. In this way, as the train rushes along, a perfect record of the scenery is made by the camera. In the Haverstraw Tunnel view, exhibited by the Kinodrome, the camera was located on the end of a car, and this car was placed in front of a locomotive and pushed through the tunnel at the rate of fifty miles an hour. The resulting picture is an exact representation of a view one would obtain were he seated upon the pilot of the engine and carried through the tunnel in this manner.

## NEW JUVENILE BOOKS.

"In the Days of Audobon," by Ezekiah Butterworth, author of "In the Days of Jefferson," "In the Boyhood of Lincoln," "The Patriot Schoolmaster," etc. Illustrated by B. West Clinedinst and others. 12mo. Cloth \$1.50. In this day of growing interest in nature study and the observation of birds, it has been a happy thought for Mr. Butterworth to prepare a story of the interesting and curious life of Audobon, for the benefit of young readers. This historical figure belongs naturally to Mr. Butterworth's stories of Great Americans, and the tale he tells will be of special interest to bird lovers and nature students, as well as to students of history. He traces the adventures of Audobon and his son to the woods, and the painful vicissitudes he underwent before his pictures of birds were appreciated. Mr. Butterworth has written a most interesting story, and one that is suggestive and instructive as well. It will be of special value to school libraries and reading circles, as well as to all who are interested in the study of birds. —D. Appleton & Co.

## DREAMERS.

"There's nothing half so sweet in life as love's young dream." The old song is right. Lovers are dreamers. They create a special world in which they live, immune from the hurts and ills which vex common humanity. In their estimate of household expenses there's no place for a doctor. And very often when the dream dissolves they find that the doctor's bill, the one thing they didn't count on, is now the one thing that's as regular as rent and taxes. And many times it is money wasted. Dr. Pierce's Favorite Prescription will do for a woman and her womanly ills, practically everything that can be done by any doctor or medicine. It regulates the periods, dries debilitating drains and cures inflammation, ulceration and female weakness. It makes childbirth easy, and thousands of nursing mothers have testified to its tonic and strength giving properties. It contains no alcohol, neither opium, cocaine or other narcotic.

Mrs. Annie Blacker, of 630 Catherine Street, Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor. I had four miscarriages, but since taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' I have much better health, and now I have a fine, healthy baby."

Free. Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## MISS STONE IS HOPEFUL

Kidnaped Missionary Bears Acute Hardships with Fortitude.

## SHE WRITES ANOTHER LETTER.

Bulgarian Government Continues to Impede the Progress of Negotiations—The United States Government Will Hold Bulgaria to Account.

Sofia, Nov. 12.—From another letter that has been received from Miss Ellen M. Stone, the abducted American missionary, it appears that she is enduring the trials of her hard experience with fortitude, forgetting herself in her anxiety for her companion, Mrs. Tullin. Miss Stone does not dare to complain of the treatment to which they are subjected, but she finds the confinement irksome and the weather extremely trying. The tone of the latest letter from her is hopeful. The brigands, by dating the letters at places in Macedonia and delaying their delivery, seek to create the appearance of being far distant. The Bulgarian government continues to interfere in the negotiations with the object of forcing a transference of them across the frontier.

## Bulgaria Breeding Trouble.

Washington, Nov. 12.—While the United States is determined to hold Bulgaria to strict account for the part she has played in the abduction of Miss Ellen Stone, the President and Secretary Hay are not prepared to initiate action contemplating reparation until Miss Stone shall have obtained her liberty. Consequently the representation made by Consul General Dickinson to the Bulgarian government that it will be held responsible, while premature, expresses accurately the view of this government. It is reiterated with positiveness that Secretary Hay is bending all his efforts to secure the liberation of Miss Stone and when accomplished then a demand for indemnity will be submitted and pressed.

## Dickinson Causes Embarrassment.

Mr. Dickinson's conduct of the negotiations with the Bulgarian government has caused the State Department considerable embarrassment. In his efforts to prevent the Sofia authorities from dispatching troops in pursuit of the brigands he has been heartily supported by the department. Mr. Dickinson has protested against the publication of facts in relation with negotiations, which he says are cable to Sofia, but it is pointed out that he himself has authorized statements even more embarrassing than those to which he objects. Mr. Eddy, secretary of legation at Constantinople, has, on the other hand, displayed considerable diplomatic ability in dealing with this delicate question, and the authorities are gratified at the course he has pursued.

## Progressing in the Orient.

Tacoma, Wash., Nov. 12.—Oriental advances received by the steamer Victoria state that the Japanese naval department is preparing to establish a steel-plate factory at Kure at a cost of 6,000,000 yen. The plant will be in working order in three years. Baron Masahide of Tokyo has obtained from Director Sheng of the Chinese railway a concession for the erection of important telephone lines, which will connect the largest cities throughout China. The preliminary arrangements now made contemplate that China shall furnish the funds and the Japanese the experts and material.

## Missing Tug Mystic Found.

Ashland, Wis., Nov. 12.—After drifting helplessly for two days on Lake Superior in storms which have driven much larger vessels to shelter, the tug Mystic of Duluth was picked up and towed to this port. The Mystic was engaged in towing a raft of logs to Houghton when her machinery broke down, leaving the boat without motive power. Her long absence without being reported at any point gave rise to fears for her safety, and she had been given up for lost with her entire crew. Beyond the effects of the exposure to which they were subjected, the crew are all well.

## World's Walking Record Broken.

Pittsburg, Nov. 12.—At 11:35 o'clock Cavanaugh broke the twenty-four-hour world's record, covering 120 miles and eight laps in twenty-three hours and five minutes. The best previous record, made by George Cartwright on a seventeen-lap track, was 120 miles and seven laps.

## Eight Sailors May Be Lost.

Alpena, Mich., Nov. 12.—The old schooner Sweetheart, with eight men on board, is drifting about in Lake Huron at the mercy of a terrific north-west gale, if she has not already plunged to the bottom.

## MAKE A RICH STRIKE IN OIL

Evansville, Wisc., Nov. 12.—Several residents of this city and vicinity have made a rich strike of oil in California during the past few months. Frank Kendall, who went from here about a year ago to drill for oil, invested in property near Los Angeles, and its present value is far in advance of the price paid. George Wood invested \$500 in some of the property which has since developed oil and a short time ago refused \$20,000 for his claim. Mr. Wood is about to close out his business interests here and will move to California in the near future.

## THE RIGHT THING.

A New Catarrh Cure, Which is Rapidly Coming to the Front. For several years Eucalyptol, Guaiacol and Hydrastin have been recognized as standard remedies for catarrhal troubles, but they have always been given separately and only very

recently an ingenious chemist succeeded in combining them, together with other antiseptics in a pleasant, effective tablet.

Druggists sell the remedy under the name of Stuart's Catarrh Tablets, and it has met with remarkable success in the cure of nasal catarrh, bronchial and throat catarrh and in catarrh of the stomach.

Mr. F. N. Benton whose address is care of Clark House, Troy, N. Y., says: "When I run up against anything that is good I like to tell people of it. I have been troubled with catarrh more or less for some time. Last winter more than ever. Tried several so-called cures but did not get any benefit from them. About six weeks ago I bought a 50 cent box of Stuart's Catarrh Tablets and am glad to say that they have done wonders for me and I do not hesitate to let all my friends know that Stuart's Catarrh Tablets are the right thing."

Mr. Geo. J. Casanova of Hotel Griffin, West 9th street, New York City, writes: "I have commenced using Stuart's Catarrh Tablets and already they have given me better results than any catarrh cure I ever tried." A leading physician of Pittsburgh advises the use of Stuart's Catarrh Tablets in preference to any other treatment for catarrh of the head, throat or stomach.

He claims they are far superior to inhalers, salves, lotions or powder, and are much more convenient and pleasant to take and are so harmless that little children take them with benefit as they contain no opiate, cocaine or any poisonous drugs.

All druggists sell Stuart's Catarrh Tablets at 50 cents for full size package and they are probably the safest and most reliable cure for any form of catarrh.

## BIG BLAZE AT LOGANSPORT.

Loss There Amounts to \$80,000—Bos-ton and Belleville Suffer.

Logansport, Ind., Nov. 12.—The plant of the Logan Milling Company and the First Presbyterian Church building were entirely destroyed by fire. The milling company's loss is \$40,000, with insurance of \$16,000. The church loss is \$20,000, with insurance of \$11,000. The publishing house of Wilson Humphreys & Co. and the Episcopal Church were slightly damaged. The wind was blowing a hurricane and a water main breaking threatened destruction to the entire city, which was averted by a heavy downpour of rain.

Boston, Nov. 12.—Fire in a group of buildings at the corner of Broad and Franklin streets in the wholesale district did fully \$100,000 damage to one building, chiefly occupied by the Murphy Varnish Company. Numerous mercantile firms in adjoining buildings have losses, but the extent will not be known for some hours.

Springfield, Ill., Nov. 12.—Anheuser-Busch Opera House at Belleville burned. Cause unknown. Loss, \$35,000, with insurance of \$12,000.

## Former Banker Is Arrested.

Chicago, Nov. 12.—From the office of president of a bank to a cell in the Central station on a charge of absconding with \$42,000 is the fate of John H. Joyce, former president of the Stoughton National bank of Stoughton, Dane county, Wis. For over two years Joyce has been eluding the police of the principal cities of the country. At times so hot was the pursuit that he was forced to visit foreign soil in the hope of escaping one relentless pursuer who has followed him since May 15, 1899. Joyce, who at one time was thought to be worth over \$1,000,000, is accused by the residents of Stoughton with receiving money when he knew his bank to be insolvent.

## Report on Rosin Industry.

Washington, D. C., Nov. 12.—A preliminary report on the turpentine and rosin industry of the United States has been issued by the census bureau, showing the extent of the industry in the census year of 1900, as compared with 1890. According to this statement the total value of these two products for 1900 was \$20,344,888, against \$8,977,379 for 1890; the number of establishments, 1,502, against 670; the capital employed, \$11,832,845, against \$4,062,375; the average number of wage-earners, 41,864, against 15,266; the total wages paid, \$8,390,632, against \$2,906,647, and the cost of materials used, \$6,196,596, against 2,874,693.

## Killed by Mountain Lion.

San Diego, Cal., Nov. 12.—From Ensenada, Lower California, comes the news that two hunters in the mountains east of Santa Catalina landing came upon the corpse of a white man, partly eaten by some wild beast. Near by was a cave. This the hunters watched and were rewarded by seeing a large mountain lion emerge from it. They killed the beast. The body has been identified as that of Frank Cook, a Norwegian carpenter.

## Minister Blanco Resigns.

Curacao, Nov. 12.—Dr. Eduardo Blanco, Venezuelan minister of foreign affairs, has resigned his portfolio. He will be succeeded by Dr. Pachano. The cause of the resignation was a disagreement regarding the Colombian question, particularly the answer of President Castro to the Pan-American congress in the City of Mexico, which was sent without Dr. Blanco's knowledge.

## Matrimonial Agents Sentenced.

Kansas City, Mo., Nov. 12.—Charles Miller and Mrs. N. C. Collins, alias Grace Arnold, alias Grace Allison, formerly of Cleveland, St. Louis, and San Francisco, who were convicted of using the mails to defraud in conducting a matrimonial bureau, were today sentenced to a year and a day in prison.

## Life Sentence for Schwantes.

Wausau, Wis., Nov. 12.—Frank Schwantes, accused of murdering the Kiokow couple and burning their home and bodies, got a life sentence in the state prison at Waupun. The prisoner broke down and the women spectators became hysterical when the sentence was read.

## Another Mutineer Captured.

Council Grove, Kan., Nov. 12.—Frank Thompson, the leader of the Fort Leavenworth prison mutineers, was recaptured near Council Grove after a battle with pursuers. One convict was fatally wounded.

Delegation of Chicago business men called upon President Roosevelt and urged legislation to establish new department of industry and commerce.

## SAFE-BLOWERS AT WORK.

Depredations Are Reported from Illinois, Indiana and Pennsylvania.

Springfield, Ill., Nov. 12.—The Bank of Chatham, at Chatham, Sangamon County, was entered by burglars, who blew open the safe and secured the contents, which included \$1,500 in cash. The burglars escaped on a hand-car, which they abandoned one mile south of Springfield Junction. The robbery occurred between midnight and 1 o'clock, as a sick woman was awakened by the handcar passing her house, located near the railroad. Congressman B. F. Caldwell is the chief owner of the bank.

Flora, Ind., Nov. 12.—Cracksmen succeeded in blowing open a large safe in F. M. Stanffer's department store at Rockfort, eight miles northwest of this city, but the amount of booty secured cannot be ascertained, as the proprietor, Mr. Stanffer, is absent in the east. The robbers used nitroglycerin, the explosion awakening the residents of the town, who soon appeared on the streets armed with shot-guns. Several shots were exchanged, during which time the bandits made their exit through a rear door, escaping on a hand car. The posse followed the bandits a short distance out of town, but the blackness of the night compelled them to give up the chase. Greensburg, Pa., Nov. 12.—Burglars dynamited the vault of the Smithton National Bank, but were unable to get into the safe, where \$17,000 in cash was deposited. They secured only \$4. The concussion partially wrecked the building.

## Prison Wardens in Session.

Kansas City, Mo., Nov. 12.—Many of the most noted wardens and prison officials in the world assembled in the parlors of the Grand Avenue Methodist church to attend the annual meeting of the National Wardens' association, the first business session of the Congress of the National Prison association. The president's annual address was delivered by Otis Fuller, superintendent of the state reformatory of Michigan. J. T. Gilmore, warden of the central prison at Toronto, Canada, addressed the association, his subject being "Prison discipline." "The construction and equipment of penal and reformatory institutions" was discussed by James E. Heg, general superintendent of the state reformatory of New Jersey. Capt. Samuel C. Lemly of the United States navy delivered an address before the Old Men's association at the public library.

## Cracker Combine Forming.

Cincinnati, Nov. 12.—Representatives of about seventy-five independent cracker-baking firms in all parts of the United States went into secret session here. The invitation was issued by the Union Biscuit company of St. Louis. Hartwell Grubbs of that company called the meeting to order. No authoritative statement of the purposes of the meeting has been made by any of the representatives present, except that it is not to make war against the biscuit trust. Still extraordinary precautions were taken to exclude representatives of the firms belonging to the National Biscuit company.

## San Francisco Strike Ended.

San Francisco, Nov. 12.—It is announced that nearly 500 machinists employed by the Fulton Iron Works have returned to work, after having been on strike for several months in an effort to obtain ten hours' pay for nine hours' work. It is understood they return to their benches on a schedule of nine hours' pay for nine hours' work.

## A Wife Says:

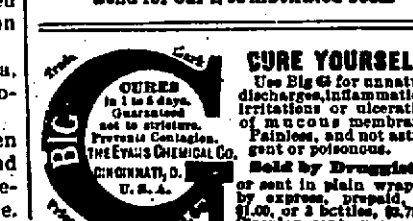

"We have four children. With the first three I suffered almost unbearable pains from 12 to 14 hours, and had to be placed under the influence of chloroform. I used three bottles of Mother's Friend before our last child came, which is a strong, fat and healthy boy, doing my housework up to within two hours of birth, and suffered but a few hours' pains. This liniment is the grandest remedy ever made."

## Mother's Friend

will do for every woman what it did for the Minnesota mother who writes the above letter. Not to use it during pregnancy is a mistake to be paid for in pain and suffering. Mother's Friend equips the patient with a strong body and clear intellect, which in turn are imparted to the child. It relaxes the muscles and allows them to expand. It relieves morning sickness and nervousness. It puts all the organs concerned in perfect condition for the final hour, so that the actual labor is short and practically painless. Danger of rising or hard breasts is altogether avoided, and recovery is merely a matter of a few days.

Druggists sell Mother's Friend for \$1 a bottle. The Bradford Regulator Co., Atlanta, Ga. Send for our free illustrated book.

## Kodol Dyspepsia Cure

Digests what you Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 24 times the 50c. size.

Mine on Fire Near Seattle. Seattle, Wash., Nov. 12.—Fire broke out in Mine No. 7 of the Pacific Coast company at Franklin, near Seattle, and one miner, Jacob A. Rose, is missing. The other members of the shift reached safety without difficulty, but it is supposed Rose fled in the wrong direction. If he did so he went to certain death. The damage to the mine will be small. The loss of coal will not exceed 8,000 tons.

## WHAT IT COSTS TO LIVE.

Statistics show that the per capita cost of living for the year ending November first was \$97.73. In round figures, \$100. That means that the 76,600,000 American people spend for living in twelve months 7,600,000,000. It means vastly more than that for no other nation lives as well, and this heavy expenditure, represents not only the necessities of life, but a world of luxuries, that have contributed to the comfort and pleasure of the people.

A great deal is said nowadays about the distribution of wealth, and all sorts of theories are advanced, by a class of people, who like to talk from the text, "the rich are growing richer, and the poor are growing poorer," and who charge the crime, as they term it, to our economic arrangements, which to their notions are far from perfect.

In the first place the argument does not contain a grain of truth, and the people who are either pessimistic agitators, or victims of a disordered stomach, that is always an index to a disordered brain.

While the year has possessed great opportunities for the accumulation of wealth, and capital has been liberally rewarded, it has furnished equally great opportunities in every department of toil, and the man or woman in health and normal condition, who is not better off today, financially, than a year ago, would be an unsafe steward to trust with a block of capital, furnished without effort.

Referring to the per capita cost of living, it may be said that many families live on less than \$100 per year for each individual member, while others spend several times that amount. Many clerks with an income of \$10 per week—\$500 per year—never know what it is to be out of debt. This frequently happens with boys and girls who live at home and pay nothing for board. The money goes just the same, with nothing to show for it but luxuries, and a round of pleasure.

The money that supplies the table with substantial food and the wardrobe with comfortable clothing, in the average American family, is less by half than the money spent in needless extravagance.

One hundred and fifty people can be boarded under one roof and be supplied with a table as good as can be found in the ordinary hotel, at a cost for material of \$200 per week.

This, of course, does not mean that hotel men should all become millionaires on \$2.00 per day. Because there is a world of expense outside the food bill. But it does indicate that the necessities of life are not so burdensome as to furnish a good argument for poverty.

The new century is more than a bread winning century. It is loaded with opportunities, unparalleled in the history of the nation, and the man or woman, especially in early life, who fails to improve them, is not entitled to vary much in the way of sympathy or wholesome respect. The sun is shining, and it's a good time to make hay; the storm and cloud is as sure to follow as time is to advance, and every intelligent artisan should get ready for it.

## AN AMUSING ERROR.

The Chicago Tribune of Sunday contained a news item to the effect that the Illinois Steel Company had booked an order for 50,000 tons of steel rails, and after giving the capacity of the plant at 50,000 tons per month, and stating that the company was flooded with orders, the following statement is made:

"Some idea of the size of an order for 50,000 tons of steel rails may be gained from the following figures, showing the selling price on a basis of \$28 a ton, how far the rails would reach if laid in a single track, and the time required for manufacture, with the cost of labor:

Market price of 50,000 tons \$1,400,000  
Time required for making..... 25 days  
Number of rails..... 1,250  
Number miles single track..... 8.1  
Men required in manufacture..... 6,500  
Pay roll for twenty-five days \$480,000

"The output of the South Chicago mills is given as 2,000 tons a day. The ore men place the ore in the fire at 6 in the morning, where it is allowed to remain five hours, leaving it as pig iron. The transformation from pig iron into steel ingots requires thirty minutes. The ingots are left in the soaking pit twenty-five minutes, after which they pass through the final process of being changed into rails, which requires forty minutes."

The enterprising reporter who turned his brain loose on the figures must have been a disciple of the "Spear" system of mathematics. The number of rails, 1,250, and the miles of track, eight and one-tenth, would demoralize a Vanderbilt.

The 100-pound to the yard steel rail in general use today, weighs a ton for a sixty-foot rail. One hundred and eighty of these rails lay a mile of track. Fifty thousand tons would

equip about 308 miles, and at this rate the expense for rails alone is no small item.

It is interesting to know that the Illinois Steel Company, as well as all other manufacturers of steel rails, is so full of business. The railroads of the country are usually a safe barometer of trade. When they are prosperous, industries, as well as agricultural interests, are usually in a thriving condition. This is true at the present time.

If The Tribune will correct its mathematics, it may prove an incentive for increased activity in the steel industry.

## HOME ENDORSEMENT.

In another part of the paper will be found a letter from Tuskegee, Ala., regarding Booker T. Washington, and the estimate placed upon him in his home town. The letter was called out by the much discussed Washington dinner with President Roosevelt, and will be read with interest.

The statement that the colored race comprises one-eighth of the population of the country, and that the president is the chief executive of all the people, and naturally has a desire to know something about this class of his constituency, is worth considering.

No man in the nation is so well informed on the subject as Mr. Washington. His life is devoted to his race, not for the purpose of gain or fame, but because a warm and generous heart prompts him to work.

The race problem, while perplexing, is a live problem. It will not down and can not be idly cast aside. Mr. Washington is thoroughly advised as to conditions, and is laying the foundation for the only practical solution of the problem.

He realizes that only intelligence and industry will ever place the colored race on a level with the whites, and command respect. He is not asking for social equality, but simply justice in dealing with a people, who, through no fault of their own, have become a part of us, and who are to continue with the nation for time to come.

The endorsement of a man's neighbors, who have known him for twenty years, is worth more than all other endorsements combined. Mr. Washington enjoys the confidence of the people who know him best, and they are southern people. The north can not do less than extend the right hand of fellowship.

Mrs. Pecher, of Milwaukee, owned a goat, as well as an old army musket that had been out of service since the close of the war. The goat visited the neighbor's back yard, and destroyed everything in sight. The neighbor corralled the animal and held him for trespass. Mrs. Pecher made a raid on the premises, accompanied by the musket, and was fined \$15.00 for carrying concealed weapons. She still owns the goat.

The young man from Menominee, who went to St. Louis to marry, a young lady, was surprised, to say the least, when the wedding presents were attached by the sheriff to satisfy a judgment against the girl's father. The sheriff was a good collector. St. Louis may have pretty girls, but it is evidently a poor place to marry.

Some people inherit wealth, and others dig for it, while a great army of discontented people stand around and criticize both classes, and wonder why fortune refuses to smile.

If the wish is father to the thought, there are a multitude of orphans around the state who are thinking about harmony, without very much desire to secure it.

The Twilight Club will discuss tonight that vexing question, "Capital and Labor." If the club discovers a practical solution, it will gain a world wide reputation at a single bound.

The boy that possesses merit, and develops ability, will become a faithful toiler, and capital will come to him as a natural result.

There is no time like the present to promote harmony, but a scarcity of promoters leaves the field unoccupied.

Life is not all sunshine. If there were no clouds the pathway would be as monotonous as California climate.

The highway of happiness is through the doorway of contentment.

## REFLECTIONS OF A BACHELOR

We have to climb up to prosperity; adversity will climb down to us.

Show me one honest man, and I will show you ten thousand thieves to rob him.

The many times you tell the woman you love that she looks pretty, don't count as much as the one time you fall to tell her.

One of the things which puzzle a man is that a mother will fret more over catching her boy smoking than catching him in a lie.

An engagement isn't of much satisfaction to the average girl unless it makes her friends think she is better off than they are.—New York Press.

## GLOBE SIGHTS.

When a mother talks of "training" her baby, the men smile.

When the millennium arrives, the

quiet, genteel man will be treated as well as the kicker. But not before. In automobile news, you see a great deal of the word chauffeur. It looks awfully important, but it means a freeman.

Every old married woman thinks that she cried on her wedding day, to give the impression that she was properly coy and scared.

The Man in the Book conceals it from his wife that the doctor thinks he is seriously ill; the man in real life reports his condition worse than it is.—Atchison Globe.

## PRESS COMMENT.

Superior Telegram: Bryan must expect to go back to the White House since he declares that "every defeat is a step nearer victory."

Superior Telegram: A La Crosse man found a pearl in an oyster stew—next they will be finding oysters in the stews in that town.

Green Bay Gazette: The man who may look like a deer to some irresponsible hunter should keep out of the woods for the next thirty days.

Racine Journal: President Roosevelt is free to counsel with party leaders, and men not leaders and even invites such counsel. Oh, well, in Wisconsin things are different.

Marquette Eagle: The people consider a man a demagogue that accepts favors from railroads while he is stumping the state, in a roasting campaign.

Jefferson County Union: La Follette will be renominated and re-elected and these land marked stalwarts will be heard declaring they were for him all the time. And that will not choke them either.

Beloit Free Press: That court of inquiry, whatever else may come out of it, has at least established the fact that Schley, like Dewey, was equal to the emergency that the accident of war forced upon him. He was the man for the hour.

Green Bay Gazette: The promoters of the St. Louis world's fair say that the exposition cannot possibly be held until 1903 and do full justice to such a notable event. Well, the rest of the world can wait a few days if St. Louis is willing.

Darlington Republican: When a Nebraska farmer can afford to pay \$450 for a helper the voice of calamity may be said to have been hushed. By the way, how can Mr. Bryan explain to Kentucky admirers his preference for short horns?

Oshkosh Northwestern: A Chicago justice has fined a milkman \$3 for swearing at his horse. But it must be remembered that it was in the same city that another judge refused to grant a divorce on the ground that the man spanked his wife. But the horse got justice, anyhow.

Fond du Lac Reporter: The friends of the Hon. Ike Stephenson say that he is becoming tired of keeping so many newspapers alive and will send out an investigating committee to find out where the editors and business managers spend their evenings.

Hudson Star and Times: Every state in the union recognizes that Wisconsin has a great and brilliant statesman in Col. John C. Spooner. Is it any wonder that the masses of our people are rising with enthusiasm to demand that he continue to serve in the high and dignified office?

Milwaukee Journal: An Illinois republican says "Gov. Yates is a little pill in a big box." Wisconsin republicans say their governor is a bitter pill, but do not trust themselves to pass comment on the question of size. As to the box he is in, that's one of those things that goes without saying.

Stoughton Hub: The election returns from New York have thrown the Milwaukee La Follette organ into a catnip fit. The defeat of Tammany in New York has about as much bearing on matters political in Wisconsin as the fall of a sparrow in the Atlantic Ocean has upon the attraction of gravitation in San Francisco.

## Growth of Our Railroads.

In 1832 there were only 229 miles of road in the United States; in 1850 there were only 9,021 miles; in 1860 there were 30,626; in 1870, 52,922. Last year there were 193,345 miles. The total mileage of the world is about 470,000, and so 41 per cent of all is in this country.

## A City of Dreammakers.

Paris leads the world in dreammaking. It is estimated that there are 75,000 persons employed in the dreammaking establishments of the city, and if one includes the workers who design and make the materials used by the dreammakers, about 1,400,000 persons are engaged in the struggle to satisfy woman's love of chiffrons.

## Effect of Heat in Sweden.

The thermometer climbed to heights unknown in Sweden last summer. The heat was almost tropical. One result was that men for the first time appeared in negligee shirts and without coats. Such a thing was never before thought of. In many cities the ladies published cards in the newspapers, asking the men to dress in a comfortable manner.

## CLEVELAND AT HOME

FORMER PRESIDENT LEADING A SECLUDED LIFE AT PRINCETON.

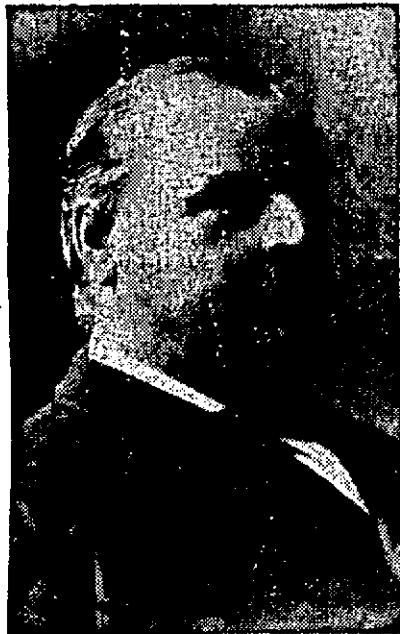

His Election to Be Trustee of the University Likely to Draw Him Out. In Great Demand on Nights of Varsity Victories.

The recent election of former President Grover Cleveland to be a trustee of Princeton university will probably result in the university and its friends seeing much more of Mr. Cleveland than it has for some years. Of late Mr. Cleveland has shunned social life. The functions of the university, which Mrs. Cleveland attends with an admirable regularity, have been unknown to him. The boards of the university publications have always extended to him invitations to attend their annual banquets, but, as a rule, he has politely sent his regrets. Nor, unlike other prominent citizens of Princeton, has he been fit to be present at the gatherings of such literary organizations as the Monday Night club or the Fortnightly club. All this, however, will probably be changed now.

Since the death of Benjamin Harrison Mr. Cleveland has been the only living ex-president of the United States. His life, however, is as unlike that led by Mr. Harrison as is possible to imagine. While the latter, even up to the time of his death, was a very busy man, things are different with Mr. Cleveland. He goes from home but little, unless he has one of his famous fishing trips on hand. Then he has only very close and intimate friends for companions. In fact, his days may be said to be spent in the strictest retirement. He has bidden farewell to the cares of public life.

Mr. Cleveland's home is on a corner of Bayard lane, a block from the Princeton Inn and Nassau street. Across the broad, tree lined street is the temporary home of Dr. Henry Van Dyke, the preacher-author. On another corner is the house occupied by Professor W. P. Scott. In a little house next to that of Mr. Cleveland lives Professor A. Guyot Cameron.

The Cleveland house is of the colonial style of architecture. It sits far back from the road and is approached by a semicircular drive. The house is a very substantial structure, though it could scarcely be called palatial. In-

From recent photo by Pach, New York. GROVER CLEVELAND.

deed, there are many much more sumptuously appointed homes in Princeton. The interior, however, is beautifully furnished.

The great part of the ex-president's time is spent in reading. Best liked by him are books and articles on public questions, and he devours nearly everything written along this line. Then come books on modern history. As a result of his literary tastes he is popular with the professors of Princeton, especially those who are interested in practical questions.

There are many days that Mr. Cleveland spends in the open air. Indeed, it is the life outdoors that appeals to him most of all. He attires himself in corduroy trousers, big hunting boots, a canvas coat and cap. With a luncheon in a basket and his gun over his shoulder he starts forth from his home as early as 8 o'clock in the morning. He makes his way to his farm of sixty acres at Rocky Hill, and there he spends the day.

Besides a trustee of Princeton, Mr. Cleveland is a member of the faculty of the university, or, rather, an honorary member. Once a year he gives two lectures before the entire university and its friends upon matters connected with public affairs. The chair for this lectureship was established through the generosity of Henry Stafford Little of the class of 1844.

One illustration must suffice to show how Mr. Cleveland stands with the undergraduates of old Nassau. He is greatly in demand by them upon the occasion of any athletic or forensic victory. When the news of a varsity triumph is flashed over the wires to Princeton, the crowd of expectant students waiting before the telegraph office at once forms into line, and a parade is started with the significant cry, "On to Cleveland's!"

The ever increasing throng hastens down Nassau street, turns into Bayard lane and in another moment has invaded the Cleveland premises. If he is at home, Mr. Cleveland at once greets them without any formality, makes a few timely and appropriate remarks and then bids them good evening amid cheers which show plainly enough that in the hearts of the Princeton boys there is many a warm spot for the man who not so long ago presided over the destinies of the country.

## Reputation

How it was made and retained in Janesville.

A good reputation is not easily earned and it was only by hard, consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Janesville residents has rendered invaluable service to the community. Read what this citizen says:—

Mr. Samuel Griffin, of 208 Locust St. journeyman carter, says: "I had a severe attack of la-grippe and as a result weakness of the kidneys set in. The secretions from those organs were greatly disordered, annoyed me much at night and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

For sale by all dealers. Price, 50 cents. Foster-McIlburn Co., Buffalo, N. Y. sole agents for U. S. A. also on at King's Pharmacy.

WORKS IN HEAT OF

the Schley Inquiry  
Disputes About  
Field-Imagination

1901, by G. L. Kilmer.]

Gons. notably in the matter of Farragut lashed to the shrouds at the battle of Mobile Bay, Sheridan's acts and sayings at Cedar Creek and Hooker's battle above the clouds. Still more common is the discrepancy in the battle narrative of participants, and the lay reader is puzzled to know how two intelligent and candid witnesses can see things so differently.

When the official chart of the battle of Santiago, prepared by the navigating experts of all the ships in consultation, was declared to be wrong by the men who made it, a doubt was cast upon all so-called official records of important actions. The navigators of the ships engaged on July 3, 1898, made it their business during the action to take bearings and prepare plans for a chart to cover the whole battle. They all disagreed as to the positions of the several ships and completed their tasks by compromises which were not satisfactory to any one.

As to the distance of the blockade from shore there has been the greatest difference in estimates, and in the matter of signals from the flagship Brooklyn the testimony reveals a mass of confusion. "Fighting Bob" Evans declared that he did not see a signal from the Brooklyn during the battle, although the signal book of the flagship has record of numerous signals hoisted and acknowledged by other vessels. Yet Evans declared that he saw the Texas and saw the famous loop. It goes without saying that a ship commander's eyes and thought at such times are on his own ship and what lies just ahead of her at any particular moment. In some cases the captains of the ships had to remind their subordinate officers who spoke to them about what other vessels were doing that the proper thing for them in the crisis was to look out for number one. So absorbed, a great deal of interest to history and to courts of inquiry naturally passed unnoticed by the very men who were closest to the scene.

No man's thoughts and eyes can be in two places at once during the excitement of a battle or, for the matter of that, on any trying occasion. Again, some very commonplace things apparently pass unnoticed because they are commonplace. It was not until a host of witnesses had testified about the darkness and the mist on the blockade that a single one spoke of the flashlights used on dark nights.

One of the most satisfactory of all the witnesses in the case was Lieutenant A. C. Hodgson, the navigator of the Brooklyn. It was Hodgson's business to know certain things about the movements of his ship, and his answers before the court showed that at least one participant of the battle had had his eyes where they belonged. In view of the many conflicting stories told since the battle, Hodgson's description of it was thrilling because it showed on its face that it was given by a man whose duty it was to know the facts and who did know them. He remembered the trying moments and how he first had discovered that the Brooklyn was all alone with the Spanish ships and he had called the attention of Captain Cook to that startling situation. Then, after he had made out the Oregon coming up through the smoke, Cook had exclaimed, "God bless the Oregon!" In all the confusion of the loop he kept the bearings of the Texas and knew, even though he did not see her all the time, just where she was and the possibility of her colliding with the flagship.

According to the testimony of Lieutenant Potts of the Massachusetts, his eyes and ears were everywhere at the time of the affair with the Colon at Santiago harbor, and he saw and heard things which escaped the notice of all the other officers about the commander. Including the captain of the ship, because these officers were intent upon the work before them. Even the commander of the battleship Indiana saw and knew less of the battle of July 3 than the captain of the marines stationed upon his vessel—that is, if the marine saw what he described as fact.

Disputes as to occurrences in battle have not only clouded history, but great names as well. The famous Fitz John Porter court martial case was one of these. Porter was convicted and punished for things which never had taken place in spite of the fact that the court supposed the evidence unimpeachable. The testimony was all taken from one side of the line of battle, but after years of peace and the soldiers on the other side came forward with proofs as to what took place on Porter's front at the time of his actions reviewed by the court it was shown that the original evidence was the exact opposite of the truth.

The controversy over Farragut in the shrouds during the battle of Mobile

Bay was purely a sentimental one. An artist painted a picture of the admiral lashed in the shrouds, with the smoke rolling around him, and there were men who had been there ready to say this was purely imagination. In their zeal to dispel the so-called myth some of the disputants almost raised the question as to whether there had been a battle at all at Mobile Bay or a Farragut in command or even a ship Hartford. Finally the officers of the Hartford came forward with the proof that Farragut climbed into the shrouds in pursuance of his duty to see for himself and that, fearing a slight wound might precipitate him to the deck below, the captain of the ship had sent the quartermaster aloft with a rope to fasten the admiral to the rigging. The rope was given two or three turns around Farragut's body and then made fast, and he remained in that position until the flagship had passed the Confederate fort, which was the point of danger.

In the same way Hooker's battle above the clouds was exploited by an artist, and the story was made a sensation by the press. Doubts were cast upon this by officers of high command, but the fact remained that Hooker's men on Lookout mountain fought with the clouds rolling around them, and the whole battle was shut out from view below while above and around the armies all was clear except for the smoke of the guns. Differences of opinion as to what does and what does not take place in a battle may almost always be accounted for by the interest of a given witness at a given time. After the civil war the attention of several generals was called to an alleged phenomenon on the battlefield where it was alleged soldiers killed instantly. Sometimes retained the last attitude of life. Grant declared that he had never seen the phenomenon and didn't believe it possible. Sherman and Sheridan had both seen it, and a surgeon who had been medical director under Grant cited numerous instances which he had investigated on Grant's own battlefields. The only explanation possible was that Grant had been absorbed in other things and that Sherman and Sheridan had stumbled upon the occurrences by the merest accident, for the phenomenon was very rare.

Sheridan's thrilling and picturesque advent at Cedar Creek was first exploited by the poet Buchanan Read. According to his memorable lines "Little Phil" dashed to the front.

Mild a storm of huzzas, And the waves of retreat were checked there because

The sight of a master compelled them to pause.

Of course there were gallant soldiers there who felt stung at the imputation of retreat. They saw no Sheridan dashing amid a storm of huzzas. They heard no huzzas and saw no retreat checked. Perhaps, too, they were there and saw no Sheridan, for Cedar Creek was a big battlefield, and Sheridan couldn't be everywhere. Finally Sheridan came out with his own story and didn't spoil the poem nor cast a slur upon any gallant soldier of his tens of thousands. He said that his horse was now at a trot and again at a gallop, that some men cheered sometimes and threw up their hats and at the hints of his officers he sometimes spoke to them and raised his hat. So those who saw Sheridan at Cedar Creek and

LIEUTENANT COMMANDER A. C. HODGSON, U. S. N.

[Navigator of the Brooklyn at Santiago.]

told stories which inspired Read's poem did see him, and those who saw him not or missed the cheering were in their places ready to obey the commander whether in sight or out of sight.

As a rule the vision of a participant in battle has a very limited range. He sees just what attracts his attention at the various stages and may not even take note of what actually lies before him. But he does see and never forgets the objects which interest him as a warrior—that is to say, the plan of the battle which bodes well or ill for himself and his ship or company or battery. Even then he will often miss things he will afterward wish to recall, sometimes the most important of all. The memory of every veteran is lumbered with trivialities which forced themselves upon him at the wrong time. Any effort to try to see certain things only is a failure. Things are happening which the eye and mind catch on the fly.

GEORGE L. KILMER.

Environment.

A narrow prospect makes a narrow man. The laws which govern human nature have decided that subject in just that way. The man who lives in a dark cellar will never equal the man who lives in the sunshine under a broad sky. The soul always fits itself to its surroundings. If they are large, the soul grows to be large; if they are small, the soul dwindles to like proportions.

## EDGERTON AND MILTON VISITORS ENTERTAINED BY RELIEF CORPS

Forty W. R. C. Ladies From the Above Rock County Villages are Given a Dinner and a Reception In This City This Afternoon.

W. H. Sargent Woman's Relief Corps, No. 21 had the pleasure of entertaining large delegations of ladies from A. D. Hamilton-W. R. C., No. 4, of Milton, and H. S. Swift, W. R. C., No. 120 from Edgerton this afternoon.

There were about forty of the visiting ladies and on their arrival in the city this forenoon they were met at the depot by a committee of local ladies and escorted to Post hall, where an elegant dinner was served at noon by the local corps.

The dinner was elegant in quality and abundant in quantity and about seventy-five ladies were served at the heavily laden tables. Yellow and white chrysanthemums and pink and white roses were the floral decorations. The divine blessing was beautifully invoked by Mrs. Stillman of Milton.

Both before dinner and immediately following it there was an enjoyable social session when friendships were renewed and new ones formed between hostesses and guests. At 2:30 o'clock Mrs. W. E. Wisner, president of the local corps, called the gathering to order for the regular meeting. No business was transacted and the afternoon was devoted to having a good time.

The ladies of W. H. Sargent corps had planned a delightful program for the entertainment of their guests. Mrs. Alice Mason read a clever original poem called "Being a Woman." Mrs. Elizabeth MacDonald read a selection "Brahma's Answer." Mrs. A. M. Glenn gave a reading on "Matrimony—How to Manage the Man," and Mrs. Bidwell read a touching tribute to "Our Soldiers."

There were piano solos by Miss Ella Wells and Miss Watson of Edgerton. In addition to this program several of the visiting ladies were called on and some excellent talks were given.

A pretty ceremony of the afternoon was the presentation of two handsome bouquets of flowers to Mrs. Alma Davidson, president of the Milton corps and Mrs. Lucie Dickinson, president of the Edgerton corps. Amusement was also caused by a floral contest in which Miss Wells read verses illustrating the names of flowers and the company guessed the answers. Roses were the reward for the most successful contestant.

Besides the Milton and Edgerton delegations Mrs. Jennie H. Dower, of Harvard, who is a member of W. H. Sargent corps, enjoyed the day with the ladies. The other guests were:

**MILTON:**  
Messdames—Alma Davidson, M. J. McCulloch, Lucy A. Clarke, H. Estee, Amanda Lee, Campbell, Kerns, Thiry.

**EMMA GILBERT, C. P. Nye, Lodovica E. Stillman, Jessie Haddon, Bertha Hall, Yerkas, Morgan, Heine**

Inspector Jack was for many years a professor in the South Side High School of Milwaukee.

## BEYOND LIFE'S CARES.

### Peter Carhart Dead

Peter Carhart, for many years a resident of this county, closed his eyes in the last sleep after a long life of useful service, last evening at 8 o'clock. His death occurred at his home in the town of Harmony after an illness of ten days with kidney trouble. Deceased was born in the town of Coeymans, Albany county, N. Y., June 19, 1812 and had reached a venerable age, having passed his eighty-ninth birthday. He leaves an aged wife who had shared his joys and sorrows for sixty-one years, and one son, Henry Carhart. Three grandsons and two grand-daughters mourn sincerely the loss of a beloved grandfather.

Funeral services will be held from the home at 9:30 o'clock and from the church in Milton at 11 o'clock. The interment will be in the Milton cemetery.

### Death of Harold Culton.

Harold Culton, son of Charles L. Culton of Edgerton, died this morning at 2:05 o'clock, after a sickness of about five weeks. He was about ten years of age and a bright, lovable child, the favorite of all who knew him. His loss will be felt as keenly by every friend as if death had entered their own home. Everything possible was done for him, the best medical aid was secured and the attention of trained nurses was employed constantly, but without avail. The sympathy of many people will be with the family in their bereavement. Besides the father and mother, two sisters are left to mourn the loss of a brother.

### Funeral of Abel Barlow.

Funeral services for the late Abel Barlow will be held from the home of Mr. and Mrs. F. A. Spoon, 108 Terrace street, Thursday morning at 11 o'clock and from the farm home, in the town of Plymouth, seven miles west of this city, at one o'clock in the afternoon. Rev. Robert C. ## JOINED THE RANKS OF THE BENEDICTS

Marriage of P. J. O'Brien of the Northwestern Road to Miss Mayme Diefenbach.

The many friends of P. J. O'Brien the genial and popular assistant superintendent of the Northern Wisconsin division of the Chicago & Northwestern railway system, were surprised by the announcement that last evening he joined the ranks of the Benedicts. The ceremony by which he was graduated from bachelorhood was performed at Red Wing, Minn., with the assistance of Miss Mayme Diefenbach, of that city, who forsook the title maiden for that of wife.

Miss Diefenbach, who by last evening's ceremony became Mrs. O'Brien and a resident of this city instead of Red Wing, is an accomplished young lady and was very popular socially in her home city. The attachment which finally led her to the marriage altar the happy bride of a proud and happy husband began in Harvard, the groom's former home during a visit which she made in that city.

The groom is a man of sterling character and one of the most trusted employees of the Chicago & Northwestern railroad offices at Oshkosh but a merited promotion brought him to this city about two years ago. During his residence here he has made a host of friends who will rejoice in his happiness and welcome Mr. O'Brien and his bride with the heartiest congratulations.

Mr. and Mrs. O'Brien are now enjoying an extended wedding trip which will take them to Washington, Philadelphia, Boston, New York and other eastern cities. On their return they will make their home in Janesville.

## KICK ON THE SEAT SALES AT MADISON

It is Alleged That Speculators and Students Manipulated Seats For Football Game.

Many complaints are heard from people in this city in regard to the way the seats for the Wisconsin-Minnesota football game have been disposed of. The seat sale was advertised to open Monday morning but when it was opened it was found that but two seats remained unsold in the grand stand and these were secured by Sidney Rundel of Madison.

The facts in the case are that the students and speculators had been allowed to reserve all of the seats they desired before the sale opened and took them all. The best seats outsiders can expect to get without paying a big premium for them are the bleachers and they will be at a premium before the game is called.

The people in this city who are figuring to attend the game and put in orders for seats in the grand stand a week ago are wondering what they will get.

## FUNERAL CORTEGE STOPS A TRAIN

The engineer on the Chicago-Madison train over the Janesville & Southeastern must be superstitious about crossing a funeral procession. When his train pulled out for Madison this morning at 10:35 a funeral procession was just crossing the Jackson street crossing and the hearse had just passed by. The engineer slackened down and finally brought the train to a stop until the procession had passed. The train has to stop for the Cut-Off crossing near this place but was stopped short of the usual place so as not to cross the procession. Engineers have so many dangers to contend with that they do not feel like tempting fate.

Milton, Nov. 2.—The hog market was lively here last week, deliveries being larger than usual, and there was little change in prices. Vincent and Hassenberger's shipments for the week were seven car loads.

Clem W. Crumb spent Sunday in the village.

Saturday evening, Nov. 9, just as the family of Mr. and Mrs. Boettcher had finished their day's work and were seated around the glowing hearth, relating the adventures of the day, a gentle knock was heard at the door. It was opened and about fifty of Mrs. Boettcher's friends were ushered in. The event was the fortieth anniversary of her birthday. A beautiful set of dishes was presented to her as a token of regard and esteem from her friends. At 10:30 a bountiful supper was served, after which all assembled in the spacious dining room where they indulged in playing games and telling stories. About midnight the company began to leave for their respective homes; each pronouncing it a very enjoyable evening.

"E. J." M. B. Downing, who has traded his farm at Koshkonong for what is known as the McNitt place, in this village, will soon move his nursery stock here and continue the business. We are glad to welcome Mr. and Mrs. Downing to our business and social circles.

Lima, Nov. 11.—Arthur Schultz is minus one finger since Friday, all on account of a corn shredder.

Mabel Boyd went to Dodge county Saturday where she will teach this winter.

Our bustling stock buyer, Norm. Freeman bought and shipped six car loads of hogs during the eight days ending Monday, Nov. 11. Not a bad showing for a dead little town like Lima.

Mrs. Richard Peacock is dangerously ill.

C. M. Gleason was home from Chicago a portion of last week.

John Waldman and family spent Sunday in Milton.

Mrs. Fred Gould and daughter attended the funeral of George Walker at Johnston Center Monday.

Miss Kaite Bingham of Six Corners is spending the week with her aunt, Mrs. McComb.

Holbrook & Woodstock put in a car load of four Monday.

Mrs. Conry's mother, Mrs. Leader, is visiting her.

Auctions are numerous these days. As an elaborate notice of the Woodstock-Painter wedding appeared in Saturday's paper we will simply extend congratulations and add that after Nov. 25, Mr. Woodstock and wife will reside in at present, vacant part of Mrs. Elphick's house.

## ROCK RIVER.

Rock River, Nov. 11.—Bert Wolstrum and Vivian Crandall left last Monday for Marshfield, Wis., for an indefinite stay.

Elia Maryott, who has been very ill with malarial fever, is not improving.

Mrs. Anna Wells and daughter, Mildred, of Milton, visited her mother, Mrs. Carlissa Vincent, last Friday.

There will be a chicken, pie, Thanksgiving supper Wednesday evening, Nov. 27th, at the home of Mr. and Mrs. Allen Davis.

A good program will be furnished by the young people and a good time is promised to all who attend.

Lewis Ashley expects to start for a week's hunting Monday.

Alf. Burdick of Milton spent Sunday with old friends on the River road.

About thirty Rock River young people were entertained at Mr. and Mrs. Wallace Paul's last Saturday evening.

The evening passed pleasantly with games, music and supper; and at a late hour all departed for their homes feeling that a most enjoyable evening had been spent.

## JOHNSTOWN.

Johnstown, Nov. 11.—Miss Maude Murphy of Waukegan, is a guest of her aunt, Mrs. Will Jones.

The banns of marriage between Walter Kelly and Miss Winnie O'Malley, both of this place, were published for the first time Sunday.

Mrs. M. Ward visited her daughter at Delavan Sunday.

James Morton of Beloit college, wheeled over from the Line City on Saturday.

Mr. Herman Fenner of Millard will work the farm recently purchased from O. L. West.

James Morton has sold his farm to J. Cox of Whitewater.

Mr. and Mrs. James Hemmings of Janesville were callers here Tuesday.

The funeral obsequies over the remains of the late John Haight, were held from the family home Saturday afternoon. A very large concourse of friends followed the body to its last resting place at Johnstown cemetery.

## A Great Medicine.

"I have used Chamberlain's colic, Cholera and Diarrhoea Remedy and it to be a great medicine," says Mr. E. S. Phillips, of Poteau, Ok. "It cured me of bloody flux, I cannot speak too highly of it." This remedy always wins the good opinion. If not the praise of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by People's Drug Co. and King's pharmacy.

Named by the President.

Want Duty on Tea Removed.

New York Nov. 12.—The Tea Duty Repeal association, consisting of some of the leading wholesale grocers, jobbers and importers of tea in this country, has just been organized. G. Waldo Smith of Smith & Sills, president of the Wholesale Grocers' association of New York city and vicinity, is president. The object of the association is to secure the removal of the tariff of ten cents per pound on all tea imported into the country.

Mrs. Jennie Wood of Wauwatosa has been visiting her son, Will Wood.

## TIMES CRITICISES SALISBURY.

Gulldhall Speech Gives Little Information on the Boer War.

New York, Nov. 12.—In an editorial article on the speech delivered by Lord Salisbury at the Gulldhall banquet on Saturday the London Times, as cabled to the New York Times, says the premier must know that Great Britain went to war in South Africa very imperfectly equipped with knowledge. The urgent representatives of many who knew the country and the Boer people were put aside as not worth listening to by the official advisers, who subsequently found everything to learn. When the country is spending a million and a half pounds weekly it must really be pardoned if it sometimes asks whether there has been slackness in the discharge of duty when there might have been energy and alertness of provision. The Times concludes, by suggesting that the nation should be told exactly what the rate of progress in South Africa is.

The Brussels correspondent of the London Times and the New York Times says the Belgian press declares Lord Salisbury's Gulldhall speech unduly optimistic and intentionally calculated to throw dust in the eyes of his audience.

WOMAN TESTS KOCH'S THEORY.

Submits to Inoculation in Interest of Science.

New York, Nov. 12.—A young woman has just been inoculated with virus from a cow suffering from tuberculosis by Dr. George D. Barney of Brooklyn. The solution of bovine tubercle bacilli was injected on each side of the woman's neck, the quantity of the injection being about one and one-half drams. The woman was Miss Emma H. King of Brooklyn. She offered to submit to this experiment, it was said, in order that the medical profession might know whether or not Prof. Koch's theory that bovine tubercle bacilli cannot infect human beings was correct. The cow from which the virus was taken was inoculated with virus of a consumptive person some time ago by Dr. Barney.

Dr. Barney said he was also anxious to prove that persons suffering from consumption in its early stages can be cured by the inhalation of a compound of the phenol group. Should Miss King be stricken with consumption as a result of the experiment she will undergo the inhalation treatment.

## BIG GUN IS A SUCCESS.

New Dynamite Weapon Tested on Fisher's Island.

New York, Nov. 12.—Highly successful tests of a new dynamite gun of destructive powers in excess of any weapon hitherto designed have just been privately conducted by a special board of officers of the bureau of ordnance of the United States army at Fisher's Island. The utmost secrecy has been enforced by the government relative to the works on Fisher's island, and the tests have not been made public. The gun, which was built in Scranton, Pa., was recently installed in a battery at the western end of the island. It is of the same pneumatic type as the guns of the batteries now in position at Sandy Hook and San Francisco, being forty feet long, with a caliber of fifteen inches, but embodies many new features, including rapidity of action and accuracy of fire.

Football Leads to Shooting.

Terre Haute, Ind., Nov. 12.—When Louis Lumley, aged 17, became angered in a football game, he made a menacing demonstration with a revolver. Charles Wilson, aged 24, also in the game, took the revolver from him, but later, when Lumley seemed to be pacified, handed it back. As he did so Lumley shot him, the bullet entering his mouth and lodging in the neck, causing what may be a fatal wound. Both young men are coal miners at Coal Bluff. Lumley was arrested.

## Postmaster Palmer

of So. Glen Falls, N. Y., describes a condition which thousands of men and women find identical with theirs. Read what he says, and note the similarity of your own case. Write to him, enclosing stamped addressed envelope for reply, and get a personal corroboration of what is here given. He says regarding

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

## BONINE TRIAL IS ON.

Woman Accused of Killing Ayres Arraigned in Washington.

Washington, D. C., Nov. 12.—Mrs. Lola Ida Bonine, accused of having shot and killed James S. Ayres, a census clerk, in his room in the Kenmore hotel last summer, is on trial here. Great interest in the case is taken by government employees, as Ayres was popular with all who knew him. But the most striking feature of the crime, if crime there was, is the nerve shown by the accused woman. It is doubtful if in the annals of tragedy any other woman, or man either, for that matter, can be found who gave an exhibition of equal coolness and self-possession.

Mrs. Bonine is 34 years of age and the mother of two children, aged 16 and 14. Her husband stands loyally by her.

Three Fishermen Missing.

New Haven, Conn., Nov. 12.—Francis Titt and Christopher Steffens of this city, who went fishing, have not returned to their homes. It is supposed that these were the occupants of a boat containing two unknown men that drifted out into the sound after the men had broken an oar.

San Francisco Police Chief Dies.

San Francisco, Nov. 12.—Chief of Police William P. Sullivan, Jr., died at 1:30 o'clock a. m. He had been confined to his bed for over three weeks by a complication of diseases, said to have been aggravated by mental worry and close application to duty during the recent strike.

Decrease in Orange Crop.

Los Angeles, Cal., Nov. 12.—Careful and conservative estimates of the orange crop of southern California for the season of 1901-02 indicate that it will be from 15 to 20 per cent less than that of last year, and, with normal climatic conditions, the fruit will be of excellent quality.

**OFFICER HELD FOR MURDER**

An Army Man Confesses to Insurance Fraud.

**HE SUBSTITUTES A CORPSE.**

Believed Cadaver Was Procured by Killing a Man—Accused Is Arrested in Louisville, After Having Re-enlisted Under an Assumed Name.

Louisville, Ky., Nov. 12.—Newell Rathbun of company K, Twenty-seventh United States Infantry, is in jail in Louisville charged with being a fugitive from justice. He is held under the belief that he will be sent to Indiana on a charge of murder. Rathbun confesses that he was in a conspiracy to defraud the Metropolitan Life Insurance company out of \$4,000, and implicates an alleged Corporal Blanchard of Plattsburg barracks, New York. It was planned to place a cadaver in the Falls City Hotel in Jeffersonville, Ind., and then burn the hotel. The dead body of a man with laudanum in his stomach was found in the hotel and Rathbun was the last person seen with the man. Last Wednesday two men registered at the Falls City Hotel as Newell C. Rathbun, Little Rock, Ark., and William L. Ten Eyke, Watertown, N. Y. The one who registered as Rathbun was poorly dressed, while the other wore good clothes. They were assigned to rooms and before supper the man who had registered as Rathbun came down dressed in a new suit. Ten Eyke soon followed, and said he and his friend were going to Louisville. He was told that he could get into the hotel any time he returned. The next morning Ten Eyke was the only one to come down to breakfast. He said his friend had been drunk the night before and asked the proprietor not to awaken him.

**Found Corpse in Room.**

At noon, however, the proprietor of the hotel went to the room and found that the alleged Rathbun was dead. Letters were found in his pocket purporting to have been written by Mrs. Sue Rathbun, 1204 High street, Little Rock, charging her husband with deserting her. A memorandum was also found which read:

"My name is Newell C. Rathbun. In case of accident or death wire Mrs. Sue Rathbun, 1204 High street, Little Rock, Ark."

Deputy Coroner Coots examined the body and found enough laudanum in the stomach to kill several men. He brought in a verdict of death by laudanum poisoning. The body was sent to Little Rock, the expenses being guaranteed by the Citizens' National Bank, and a search was made for Ten Eyke. On Saturday a letter was received from Louisville and signed Ten Eyke, in which the writer said he met Rathbun in Little Rock about a year ago. The writer was then in a poor way, he said, and Rathbun had befriended him. The writer said he had not met Rathbun again until they came together in Louisville. The conditions were reversed and he had befriended Rathbun. The writer did not say where he could be found in Louisville. About the same time the letter was received a telegram came from Little Rock saying the corpse was not that of Rathbun. One woman in Little Rock, Miss Corinne Pryor of 1401 Wolf street, said that Rathbun had made a proposition to marry her last spring. He was to procure a life insurance policy, and they were to go to housekeeping. A cadaver was to be obtained and the house burned, and she was to identify the body. She refused.

**Rathbun Confesses to Fraud.**

The police started a search for Ten Eyke. On information given by Sergeant Skinner of the Louisville recruiting station a recruit who gave his name as "Lon Root, Detroit," was arrested here. He was subjected to the sweating process and he said: "I was United States recruiting officer at Little Rock, Ark., and was ordered to Plattsburg barracks, New York, a month ago, on similar duty. There I met a Corporal Blanchard, and we fixed up a scheme to beat the Metropolitan Insurance company, in which I hold \$4,000 on my life."

**A DAY OF THANKS**

Governor La Follette Issues His Annual Proclamation for Thanksgiving—Full Text of Document.

"To make grateful acknowledgment of the blessings of liberty, peace, health and prosperity, has become the hallowed custom of the American people."

"By authority of Wisconsin law, in conformity with a proclamation by the president of the United States, and to promote recognition and appreciation of the manifold advantages enjoyed during the past year, I, Robert M. La Follette, governor of the state of Wisconsin, do hereby designate and set apart Thursday, Nov. 28, 1901, to be a day of Thanksgiving."

"On that day I recommend that the people of this state do abandon their usual occupations and gather at their places of public worship or within their homes, and there give expression of their gratitude to God."

"In testimony whereof, I have hereunto set my hand and caused the great seal of the state of Wisconsin to be affixed thereto. Done at the capitol, in the city of Madison, this 11th day of November, A. D. 1901."

"ROBERT M. LA FOLLETTE,

**A Pleasing Recital.**

Miss Bernice Castello gave a pleasing recital in the Congregational Sunday School room last evening, in which she gave evidence of her skill as a singer, a reader and a violinist. She excels as a vocalist, having a rich and powerful voice of great sweetness and singing with perfect ease. She sang an Italian waltz song and "May Morning" and after the latter number she was compelled to respond to an encore. For her readings she gave selections which have been written especially for her entertainments by her mother, Miss Castello is especially good in her child impersonations and her imitations, her story of the mosquito, with its insistent song, being very true to life. Her violin reading combining the singing of "Home, Sweet Home" with violin accompaniment with the story told by the reading made a novel number. Mrs. J. F. Sweeney played the piano accompaniments for Miss Castello's singing.

## THREE WERE SHOT ON THE FIRST DAY

Wisconsin Deer Season Opens with a  
Number of Accidents—Woods  
Full of Hunters.

Milwaukee, Wis., Nov. 12.—Many deer were killed in Wisconsin yesterday, marking the opening of the season. In spite of the unfavorable character of the weather, hunters thronged the trails on all of the railroads running northward, and never in the history of Wisconsin have so many gone in search of game. In the vicinity of Ashland, Thorpe, Stanley, Plainfield and Merrill the deer are more plentiful than ever, and reports indicate that the slaughter will be on a tremendous scale this year.

Large numbers of hunters from Illinois and Indiana, attracted to Wisconsin by the favorable character of the reports from the deer country, are encamped along the Wisconsin and Northwestern roads, and in the vicinity of Ashland there is one Indiana party of liberal dimensions prepared to take back all of the venison the game laws of the state will permit them to ship out of Wisconsin.

The weather was unfavorable for hunting throughout the entire northern section of Wisconsin, rain falling and the temperature rising, rendering it extremely difficult to stalk deer and at the same time preserve the carcasses, but the probability of the advent of a cold wave during the night made the hunters more hopeful of success today.

With the opening of the deer hunting season in Wisconsin and the consequent added interest in the hunting of all game, there are numerous reports of the accidental shooting of hunters. Those shot yesterday were: Irving Seymour, Dover Station, probably fatally; William Fremder, Oconto, will lose one leg; Harry Belangia, Sturgeon Bay, will lose left hand.

## AMERICANS ROUT FILIPINOS.

Garrison, at Abra, de Hog Repulse an  
Attack by Insurgents.

Manila, Nov. 12.—Major William L. Fletcher of the 1st regiment of infantry, commanding the Mindoro expedition, reports that the garrison of Abra de Hog was attacked by force of insurgents commanded by Lenocos.

The Filipinos apparently attempted to repeat the Samar tactics, but the Americans, who were breakfasting, fully armed, completely routed the insurgents, who left five men dead on the field, each leaving a rifle and ammunition. One American was seriously wounded.

Capt. Noyes of the 30th Infantry, commanding a detachment of fifty men, has captured a deserter named Richter of the 6th artillery wearing the uniform of an insurgent lieutenant.

Major Fletcher says he recently captured three officers and a large part of an insurgent company, all fully armed. It is believed the insurgent recently received a supply of munitions of war.

## SCHLEY COURT IN SESSION.

Dewey, Benham, and Ramsay Meet to  
Consider Evidence.

Washington, Nov. 12.—At 10 o'clock Admiral Dewey and Rear Admirals Benham and Ramsay, composing the Schley court of inquiry, met at their quarters in the McLean building behind closed doors and began the consideration of evidence brought forward in the investigation concluded last week.

The sittings of the court are to be strictly secret. The present plan is to hold daily sessions from 10 to 12:30 o'clock. The court has two small rooms for its work—one for the members and the other for the clerical help. At the door of the latter is stationed a sergeant of marines whose uniform would be the only surface suggestion to a chance caller that something out of the ordinary was going on in these two little rooms.

Schley Wants to Rest.

Indianapolis, Nov. 12.—Rear Admiral Schley has replied to the invitation of the commercial bodies to visit Indianapolis, saying that it will be impossible for him to come. The Admiral expresses regret at his inability to accept, but he says that fatigue incident to the court of inquiry has made it necessary for him to take a long and much-needed rest.

Wagwash, N. S., Nearly Wiped Out.

Wagwash, N. S., Nov. 12.—Fire during a gale of wind here was followed by the complete destruction of every store and several of the best houses in this town. Twenty structures were burned, with a loss of \$50,000. The insurance is about one-third of this sum.

Use Dynamite on Safe.

Greensburg, Pa., Nov. 12.—Burglars opened the vault of the Smithson National Bank with dynamite, but were unable to get into the safe, where \$17,000 in cash was deposited. They obtained only \$4. The concussion partly wrecked the building.

Electricity for Swedish Railroads.

The Swedish government has under consideration the substitution of electricity for steam on all the Swedish railroads, the abundance of water power in the country not only making the project feasible, but holding out promise of a great saving.—Philadelphia Times.

Propagation of Blue-Bottle Flies.

The eggs of a blue-bottle fly, if placed in the sun, will hatch in two or three hours. Linnaeus declares that the larvae of three blue-bottle flies will devour the carcass of a horse as quickly as would a lion, so rapidly do these insects increase and so voracious do they become.
